RE: Appraisal of a Multifamily Property located at 180 Hidden Lake Court, Macon, Bibb County, GA 31204, prepared by Newmark Knight Frank Valuation & Advisory, LLC (herein "Firm" or "NKF")

NKF Job No.: 20-0015551-1

Dear Mr. Franklin:

The "Subject Property" is a 144 unit garden-style apartment complex known as Anthos at Hidden Lakes. The site area is 547,549 square feet, or 12.57 acres. The subject was built in 1988. It includes nineteen multifamily buildings plus a leasing office/clubhouse. The subject is currently under contract. At the request of the client we have also provided the stabilized value 24 months out.

Based on the analysis contained in the following report, the opinions of value for the subject are:

Value Conclusions			
Appraisal Premise	Interest Appraised	Date of Value	Value Conclusion
Market Value "As Is"	Leased Fee	1/22/2020	\$10,450,000
Prospective Market Value	Leased Fee	1/22/2022	\$10,950,000

Compiled by NKF

Extraordinary Assumptions

An extraordinary assumption is defined in USPAP as an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions. The value conclusions are subject to the following extraordinary assumptions that may affect the assignment results.

1. The prospective market value at stabilization assumes the stabilized operation of the property as of the stabilization date (effective date of value).

The use of this extraordinary assumption might have affected assignment results.

Hypothetical Conditions

A hypothetical condition is defined in USPAP as a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. The value conclusions are based on the following hypothetical conditions that may affect the assignment results.

1. None

The appraisal was developed based on, and this report has been prepared in conformance with the Client's appraisal requirements, the guidelines and recommendations set forth in the Uniform Standards of Professional Appraisal Practice (USPAP), the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute, Title XI of the Financial Institution Reform, Recovery and Enforcement Act (FIRREA) of 1989, and the Interagency Appraisal and Evaluation Guidelines (December 2, 2010).

Certification

We certify that, to the best of our knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are our personal, impartial and unbiased professional analyses, opinions, and conclusions.
3. We have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
4. We have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
5. Our engagement in this assignment was not contingent upon developing or reporting predetermined results.
6. Our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
7. This appraisal assignment was not based upon a requested minimum valuation, a specific valuation, or the approval of a loan.
8. Our analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice, as well as the requirements of the State of Georgia.
9. The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.
10. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
11. As of the date of this report, Robert Mancini, MAI has completed the continuing education program for Designated Members of the Appraisal Institute.
12. As of the date of this report, Raymond Higgins has completed the Standards and Ethics Education Requirements for Candidates of the Appraisal Institute.
13. Robert Mancini, MAI made a personal inspection of the property that is the subject of this report. Raymond Higgins has not personally inspected the subject.
14. No one provided significant real property appraisal assistance to the person(s) signing this certification.
15. The Firm operates as an independent economic entity. Although employees of other service lines or affiliates of the Firm may be contacted as a part of our routine market research investigations, absolute client confidentiality and privacy were maintained at all times with regard to this assignment without conflict of interest.
16. Within this report, "Newmark Knight Frank", "NKF Valuation & Advisory", "NKF, Inc.", and similar forms of reference refer only to the appraiser(s) who have signed this certification and any persons noted above as having provided significant real property appraisal assistance to the persons signing this report.

17. Robert Mancini, MAI has not performed any services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Raymond Higgins has not performed any services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
18. We certify that to the best of our knowledge and belief, our analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Georgia Real Estate Appraiser Classification and Regulation Act and the Rules and Regulations of the Georgia Real Estate Appraisers Board.

Introduction

Ownership History

The current owner is BK Hidden and NA Hidden, LLC. The following summarizes a three-year history of ownership, the current listing status, and pending transactions for the subject property (as applicable).

Ownership History

To the best of our knowledge, no sale or transfer of ownership has taken place within the three-year period prior to the effective date of the appraisal.

Listing Status:	Not Listed For Sale	
Current Contract:	October 29, 2019	
Buyer:	Varadero Exact Partners, LLC	
Seller:	Hidden Seller and Shadowood Seller	
Purchase Price:	\$10,419,100	\$64.68 Per SF (Net Rentable Area)
Variance Compared to Appraised Value:	#N/A	

Previous Sales

Sales in the Previous Three Years:	None	
Most Recent Reported Sale:	December 7, 2012	
Buyer:	BK Hidden and NA Hidden, LLC	
Seller:	Anthos at Hidden Lakes of Macon, LLC	
Purchase Price:	\$0	\$0.00 Per SF (Net Rentable Area)
Deed Information:	8881/194	
Comments:	Corp to Corp \$0 Sale. Prior arm's length sale was 04/03/2008	
Indicated Appraised Value Appreciation:	N/A	

Compiled by NKF

To the best of our knowledge, no other sale or transfer of ownership has taken place within a three-year period prior to the effective date of the appraisal. The subject is currently under contract for \$10,419,100, or \$72,355 per unit. The buyers plan to renovate the subject and increase revenue.

Intended Use and User

The intended use and user of our report are specifically identified in our report as agreed upon in our contract for services and/or reliance language found in the report. No other use or user of the report is permitted by any other party for any other purpose. Dissemination of this report by any party to non-client, non-intended users does not extend reliance to any other party and Newmark Knight Frank will not be responsible for unauthorized use of the report, its conclusions or contents used partially or in its entirety.

- ❖ The intended use of the appraisal is for Asset Valuation and no other use is permitted.

- ❖ The client is Greystone Servicing Company LLC.
- ❖ The intended user is Greystone Servicing Company LLC and no other user is permitted by any other party for any other purpose.

Definition of Value

Market value is defined as:

“The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- ❖ Buyer and seller are typically motivated;
- ❖ Both parties are well informed or well advised, and acting in what they consider their own best interests;
- ❖ A reasonable time is allowed for exposure in the open market;
- ❖ Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- ❖ The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.”

(Source: Code of Federal Regulations, Title 12, Chapter I, Part 34.42[g]; also Interagency Appraisal and Evaluation Guidelines, Federal Register, 75 FR 77449, December 10, 2010, page 77472)

Interest Appraised

The appraisal is of the Fee Simple and Leased Fee interest.¹

- ◆ **Fee Simple Estate:** Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.
- ◆ **Leased Fee Interest:** The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires.

Appraisal Report

This appraisal is presented in the form of an appraisal report, which is intended to comply with the reporting requirements set forth under Standards Rule 2-2(a) of USPAP. This report incorporates sufficient information regarding the data, reasoning and analysis that were used to develop the opinion of value in accordance with the intended use and user.

Purpose of the Appraisal

The purpose of the appraisal is to develop an opinion of the Prospective Market Value "Upon Stabilization" of the Leased Fee interest in the subject property.

Purpose of the Appraisal		
Appraisal Premise	Interest Appraised	Date of Value
Market Value "As Is"	Leased Fee	1/22/2020
Prospective Market Value	Leased Fee	1/22/2022
Insurable Value	Fee Simple	1/22/2020

Moody's summarizes the area's economic performance in recent months as follows:

Recent Performance

Macon-Bibb County's economy has improved in 2019. Year-ago job growth is advancing at its fastest pace in more than two years, although it still trails that of the state and the nation. Healthcare and leisure/hospitality are the standout performers, accounting for more than two-thirds of the net job additions over the last year. However, the large finance industry has not fared as well, with payrolls sitting at the same level they were one year ago. The unemployment rate has trended higher in 2019, but remains within striking distance of an all-time low. House price appreciation accelerated in the second quarter and now exceeds that of the nation, although it is a bit shy of the statewide pace.

Market Comparison

The following table illustrates key economic indicators and a comparison of the Macon MSA to the regional grouping as a whole. As indicated, Macon is projected to outperform the South Region Metros in three of eight performance categories shown over the next five years.

Comparison of Key Economic Indicators - Macon MSA Metro to South Region

Comparing the industry sectors for the local market area (3-Miles Radius) to Macon-Bibb County indicates the local market area is somewhat more heavily weighted toward the Services, Retail Trade, Transportation/Utilities, Construction, and Agriculture/Mining sectors. By contrast, the industry employment totals for Macon-Bibb County indicate somewhat higher proportions within the Finance/Insurance/Real Estate, Public Administration, Wholesale Trade, Manufacturing, and Information sectors. The following graphic further illustrates this comparison.

Employment Comparison

Source: ESRI; Compiled by NKF

Unemployment

The following table displays the historical unemployment data for the area derived from the US Department of Commerce, Bureau of Labor Statistics.

Unemployment Rate: Macon-Bibb County, GA Metropolitan Statistical Area (U)

Bars represent beginning to end range of unemployment rates in each year
 Red bars denote increasing unemployment from beginning to end of year
 Green bars are declining unemployment from beginning to end of year

Compiled by NKF

Major Employers

The following table lists a number of major employers with the Macon MSA as reported by Moody's. While not all-encompassing, this list provides further indication of the types of economic sectors that are drivers for the area.

Selected Major Employers: Macon MSA		
Rank	Employer	Employees
1	GEICO	5,500
2	Navicent Health Medical Center	4,800
3	Coliseum Health Systems	1,805
4	Mercer University	1,000
5	Georgia Farm Bureau Federation	998
6	YKK Corp. of America	790
7	Wal-Mart Stores Inc.	740
8	Middle Georgia State University	680
9	United States Postal Service	600
10	State Bank	554
11	Central Georgia Technical College	514
12	Ricoh USA	500
13	Graphic Packaging International	431
14	Kumho	400
15	HAECO Americas	400
16	Tractor Supply Co.	400
17	Armstrong World Industries	393
18	OrthoGeorgia	317
19	AT&T	302
20	Cherokee Brick & Tile Co.	300

Analysis

Further economic analysis from Moody's is detailed as follows:

Insurance

Macon's outsize insurance industry is on solid ground, but payrolls will not expand meaningfully in the short term. The metro area boasts the highest concentration of insurance jobs in the region since it is home to GEICO's largest U.S. office. The auto insurer houses most of its claims, service and sales professionals in the metro area as below-average business costs make Macon a desirable location. At \$47,000 per year, local insurance wages are only about half of the national average, but the industry still pays its workers more than the average wage in the metro area across all industries. As a result, any additional jobs created will help improve Macon's below-average per capita income and will boost housing and consumer industries. Nationwide vehicle miles traveled are up 0.7% from a year ago, and this, along with the robust national economy, will put a floor under the industry's payrolls. However, net hiring will not take off any time soon as growth in vehicle sales decelerates.

Healthcare

Health services will propel much of Macon's job additions in coming quarters. Healthcare employs more than one-in-five workers in the metro area, and it will play an important role in

income additions since it is a large source of mid- and high-paying positions. Although the industry will be one of the best performers in the metro area, it will not grow as fast as statewide due to weak demographics. Macon's population declined in five of the past six years and growth in 2018 was only a fraction of the state and national averages. On the bright side, Macon's role as a regional healthcare hub will enable it to benefit as aging populations outside of the metro area travel to Macon for care.

Hurdles

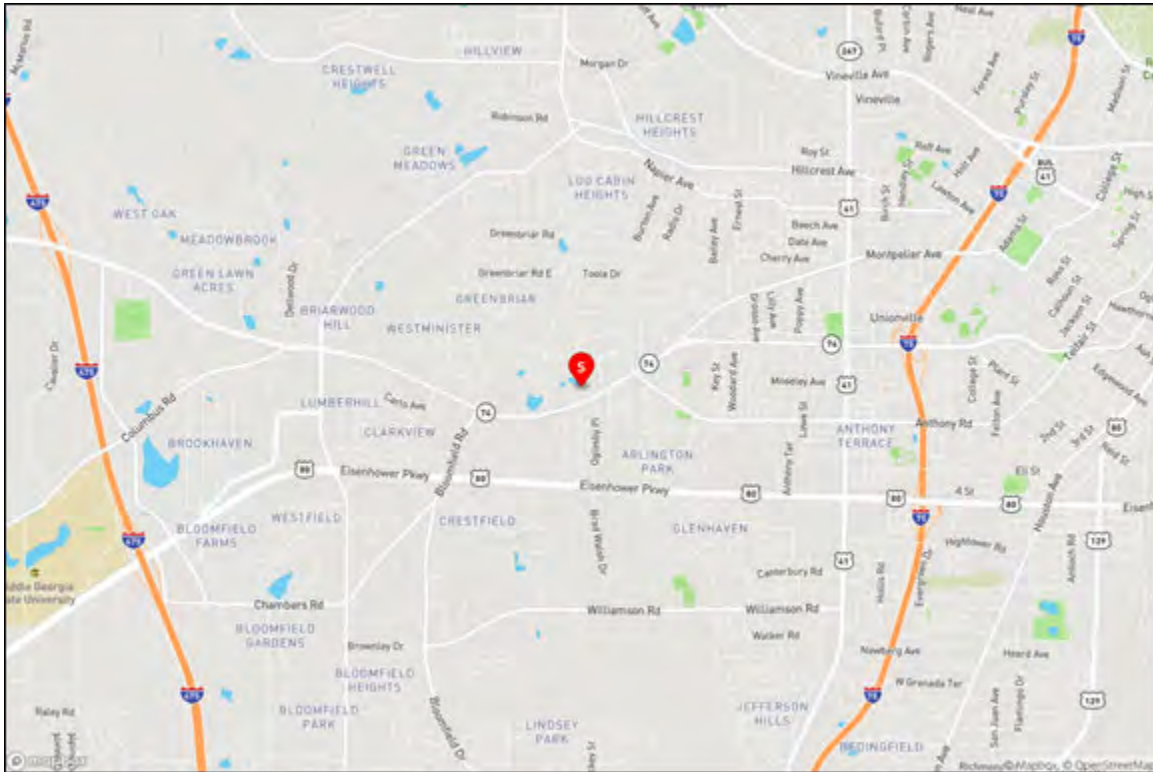

Macon will struggle to attract the investment necessary to boost high-wage employment. Out-migration has plagued the metro area consistently since the turn of the decade despite a slight improvement last year. The out-migration of skilled prime-age workers is one factor preventing investment in high-wage industries, and those who are left in the metro area are undereducated compared with the state and the nation. The below-average concentration of tech employment paired with a low-skill workforce will make it difficult to attract firms searching for white-collar talent. As a result, per capita income will remain far below that of the rest of the state.

Conclusion

Positive Attributes	Negative Attributes
❌ Proximity to southern manufacturing hubs.	❌ Below-average educational attainment and low per capita income.
❌ Below-average business and living costs.	❌ Dearth of high-tech jobs.
❌ Large and stable healthcare industry.	❌ Poor population trends.
	❌ High homeowner and rental vacancy rates.

Macon-Bibb County's economy will slow in conjunction with the rest of the state and the nation as the expansion matures. The outside healthcare industry will power most of the job gains, but population-dependent industries will disappoint due to unfavorable demographics and finance will experience only modest net hiring. In the long term, a poorly educated workforce and weak population additions will constrain Macon to lag both the state and the nation in job and income growth.

Neighborhood Analysis

Area Map

Boundaries

The subject is located in the western area of Macon, Georgia. This area is part of the Bibb County submarket as defined by Costar and is generally delineated as follows:

North	Vineville Avenue
South	Eisenhower Parkway
East	Pio Nono Avenue
West	Interstate 475

Surrounding Area of Influence Trends

Description

The subject’s surrounding area is viewed as suburban.

Characteristics

- ❑ 50%-75% developed.
- ❑ Growth within the neighborhood has been mostly concentrated along primary commercial thoroughfares.

- ❖ The Ocmulgee River is a major river that runs through the city. Macon is one of Georgia's three major Fall Line Cities, along with Augusta and Columbus. The Fall Line is where the hilly lands of the Piedmont plateau meet the flat terrain of the coastal plain. As such, Macon has a varied landscape of rolling hills on the north side and flat plains on the south. The fall line, where the altitude drops noticeably, causes rivers and creeks in the area to flow rapidly toward the ocean.
- ❖ The largest employment sector is education and health services, which represents a 30% larger share of jobs in the Macon metro than the National Index. This is undoubtedly buoyed by Navicent Health Medical Center, and Mercer University. The Bibb County Board of Education, Coliseum Health System, and GEICO are also major employers.
- ❖ Mercer University, approximately 2 miles east of the subject, is a private university with its main campus in Macon, Georgia. Founded in 1833 as Mercer Institute and gaining university status in 1837, it is the oldest private university in Georgia and enrolls more than 8,600 students in 12 colleges and schools: liberal arts, business, engineering, education, music, continuing and professional studies, law, theology, medicine, pharmacy, nursing, and health professions. Mercer is a member of the Georgia Research Alliance and has a chapter of Phi Beta Kappa, the nation's oldest collegiate honors society.
- ❖ Middle Georgia State University, approximately 4 miles west of the subject, is a public university with its main campus in Macon, Georgia. It is part of the University System of Georgia and offers master's, bachelor's and associate degrees, as well as some certificates, to students on five campuses in Middle Georgia, and online.
- ❖ Wesleyan College, approximately 5 miles north of the subject, is a private, liberal arts women's college located in Macon, Georgia, United States. The Wesleyan College Historic District was listed on the National Register of Historic Places on April 2, 2004. Founded in 1836, Wesleyan is the first college in the world chartered to grant degrees to women.

Fundamental Real Estate Cycle

The surrounding area is considered to be within the stability stage of its real estate cycle. Given the history of the area and the growth trends, it is anticipated that the property values will remain constant in the future.

New Development

The area's residential developments range from older, single-family homes and apartments to newly developed subdivisions and apartments. Most homes were built prior to 1980; however, the area features various subdivisions developed within the past 10 years offering quality "starter" homes. The neighborhood's apartment complexes are generally located along primary

commercial roadways. In general, these developments are older and in average condition. Various complexes have undergone varying degrees of renovation with some in good condition and others in average to fair condition.

Macon Mall, located just south of the subject, is a two level, 1.1 million square foot shopping mall featuring Macy's, and Burlington, as its anchor stores, as well as a food court. In 2008, The Shoppes at River Crossing, a new lifestyle center, opened in North Bibb County and took Dillard's from Macon Mall. On January 6, 2020, it was announced that that Macy's would be closing in March 2020 which will leave Burlington as the only anchor left. The Shoppes at Rivers Crossing is a super regional lifestyle center located approximately 7 miles north of the subject. Phase I opened March 19, 2008, while phase II opened shortly after. Belk and Dillard's opened their second Macon-area stores at River Crossing in 2008; however, Dillard's closed its old Macon Mall location later in 2008 and Belk closed its old Macon Mall location in 2012, leaving the new mall River Crossing stores as the only ones in Macon.

The total amount of units under construction has ticked downwards, leaving only 120 units underway in Macon. Supply additions are expected to remain scarce in the near term, with only a handful of small proposals in the metro. The market has absorbed almost 1,700 units since 2010, a roughly 15% increase in inventory. Most of this construction activity can be attributed to Sierra Development. The local developer has been responsible for bringing a number of mixed-use projects to downtown Macon, including those targeting students at Mercer University. Bowman Station delivered in 18Q2, offering 216 units near the I-75 and Bass Road interchange. The suburban Bibb County project is the first major project not developed by Sierra Development since 2012, and is posting a lease-up pace of around 15 units per month. The property boasts average asking rents of close to \$1/SF with no concessions, far above the metro average of \$0.78/SF.

Access

Primary Access

Interstate 16, Interstate 75, Interstate 475

Major Thoroughfares

Eisenhower Parkway, Vineville Avenue, Pio Nono Avenue, Mercer University Drive

Transportation

The primary mode of transportation in this area is the automobile.

Distance from Key Locations

The commute to the Macon Central Business District is about ten to fifteen minutes and the drive to the Middle Georgia Regional Airport is about twenty minutes while the drive to the Hartsfield-Jackson Atlanta International Airport is about an hour to an hour and a half, depending on traffic patterns. The following illustrates the 10 minute drive time from the subject.

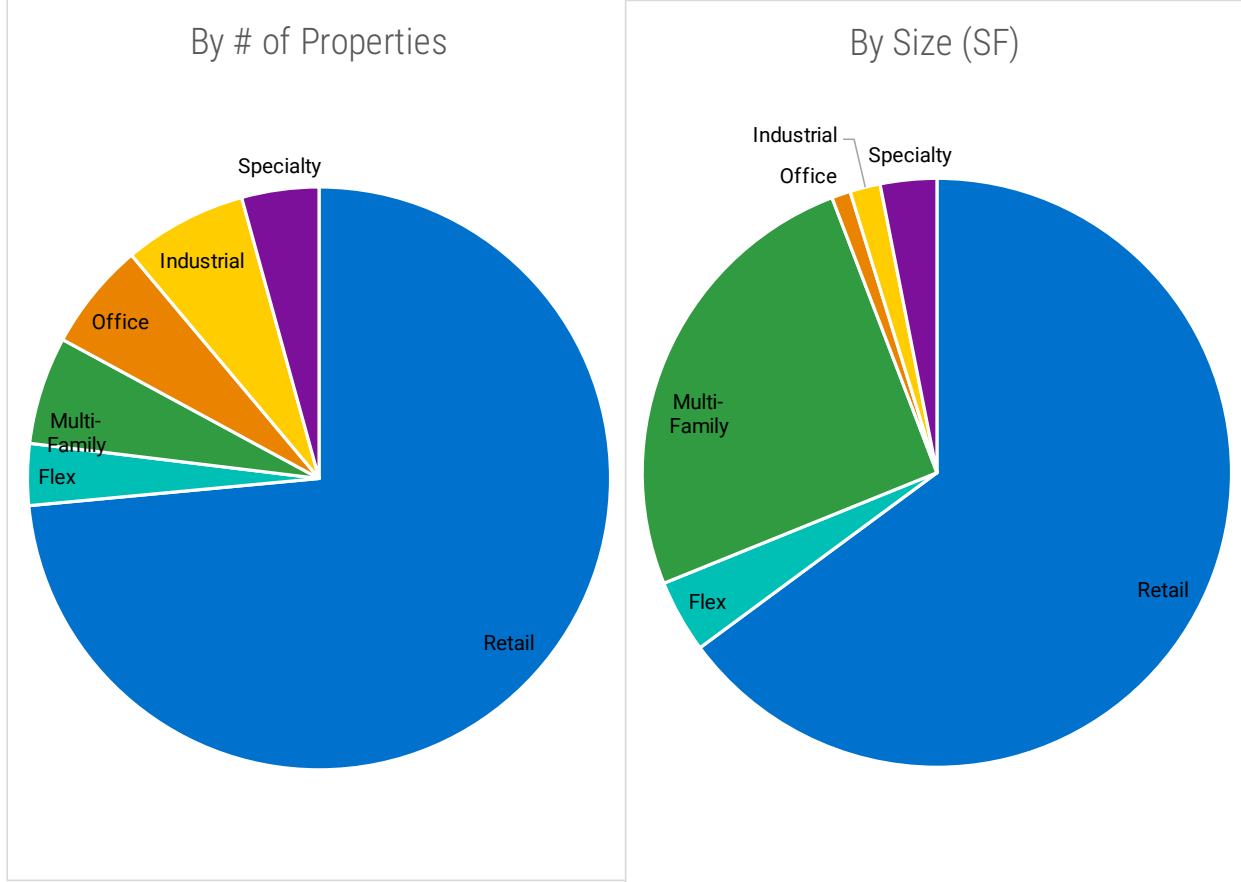

Drive Time Map

Land Use

The following was developed from Costar data for the major property types in the surrounding 1.0 mile radius around the subject.

Surrounding Area Commercial Property Characteristics

Source: Costar; Compiled by NKF

Within the immediate area of the subject, property uses include the following:

North	Single-Family Residential
South	Macon Mall
East	General Retail
West	General Retail

Demographics

A demographic summary for the defined area is illustrated as follows:

Demographic Analysis

Multifamily Market Statistics

Trailing Four Quarters Ended Q4 2019

Market / Submarket	Inventory (Unit)	Completions (Unit)	Vacancy (%)	Net Absorption (Unit)	Asking Rent Per Unit	Effective Rent Per Unit
Macon	13,818	153	11.50%	82	\$839	\$833
Bibb County	12,443	134	11.80%	71	\$830	\$824

Source: Costar; Compiled by NKF Valuation & Advisory

- ❖ The average vacancy rate for the subject submarket is similar to that of the overall market area because of its locational characteristics.
- ❖ The average rental rate for the submarket is similar to the overall Macon market. The subject Bibb County submarket is considered a similar tier submarket as compared to the other submarkets in the overall Macon area due to its locational and economic characteristics.
- ❖ Approximately 1.1% of the submarket inventory, and 1.1% of the market inventory, represents newer construction unlike the subject.
- ❖ Absorption for the last 12 months was positive for the overall market area and at the submarket level.

Bibb County	134	71	1.9	365	183	2.0	735	186	4.0

Source: Costar; Compiled by NKF Valuation & Advisory

- ❖ Absorption in the Bibb County submarket has fallen behind construction over the past three years.
- ❖ Construction has outpaced absorption over the past five years as evidenced by the approximate 3.5 ratio of construction to absorption in the overall Macon market area.

Trends and Projections

Subject and Market Historical and Forecast Trends

Market Vacancy Rate Indicators					
	Current	Most Recent Full Year	Trailing 3-Year	Trailing 5-Year	Trailing 10-Year
Macon	11.50%	11.20%	10.60%	9.40%	8.60%
Bibb County	11.80%	11.50%	10.90%	9.80%	8.80%
Direct Competition	6.30%				
Subject	7.60%				
Concluded Subject Vacancy Rate	5.00%				

Source: Costar, NKF Valuation & Advisory

- ❑ The trend for the subject against the market has been stagnant occupancy rates in recent months.
- ❑ The forecast is for this trend to continue for the foreseeable future.

Market Conclusion

Absorption

The vacancy level fluctuated throughout most of the expansion as new properties delivered in Macon. However, the vacancy rate is expected to gradually decline in the coming years, with a muted pipeline and several job expansions on the horizon.

Properties rated 4 & 5 Star post vacancy rates above the metro average as these new properties continue to lease-up. Lower-quality, 3 Star product boasts the tightest vacancies, while 1 & 2 Star vacancies remain structurally well above the Macon average.

While overall year-over-year job growth is still below the national average, professional and business services sector has enjoyed solid growth recently. At right around the national average over the past year, growth in this industry is almost twice the historical average. Continued

increases in white-collar jobs in Macon should help fuel more multifamily demand in the coming years.

Macon could see several companies expand operations in the metro, further boosting multifamily demand. Amazon is creating 500 jobs at its distribution hub in the southern portion of Bibb County. Aircraft manufacturer Embraer announced it would hire 200 employees at Middle Georgia Regional Airport, while Irving Consumer Products will also add an additional 150-plus employees to the second phase of its manufacturing plant later this year.

Conclusion

Occupancy Conclusions

Macon	88.50%
Bibb County	88.20%
Direct Competition	93.70%
Subject Property's Current Occupancy	92.40%
Subject Property's Stabilized Occupancy	95.00%

Source: Costar, NKF Valuation & Advisory

Despite the sluggish job growth and unemployment above the national average, multifamily properties in Macon have performed fairly well this expansion. Supply-side pressure on the market has resulted in fluctuating vacancies. However, demand has held decidedly solid, as recently delivered units lease fairly well. Rent growth has likewise fluctuated as new properties have delivered, but it stands comfortably above the historical norm. Investment volume has picked up slightly in recent quarters as some institutional-sized assets have traded hands within the past year.

Based on the key metro and submarket area trends, construction outlook, and the performance of competing properties, NKF expects the mix of property fundamentals and economic conditions in the Macon metro area to have a neutral impact on the subject property's performance in the near-term.

Stabilization Discount

The approaches to value employed for this appraisal are developed to reflect a property operating at a stabilized level. A stabilized occupancy for the subject has been estimated to be 95% while the subject is currently operating at 92%. A typical investor would not include a stabilization discount given the minor spread between the current and stabilized occupancy.

Easements, Encroachments and Restrictions

Based upon a review of the deed and property survey, we are not aware of any easements, encroachments, or restrictions that would adversely affect value. Our valuation assumes no adverse impacts from easements, encroachments, or restrictions, and further assumes that the subject has clear and marketable title.

Environmental Issues

No environmental issues were observed or reported. NKF is not qualified to detect the existence of potentially hazardous issues such as soil contaminants, the presence of abandoned underground tanks, or other below-ground sources of potential site contamination. The existence of such substances may affect the value of the property. For this assignment, we have specifically assumed that any hazardous materials that would cause a loss in value do not affect the subject.

We walked around the subject site, including the rear of the buildings, the pool area and did not observe any obvious indicators of environmental contamination or adverse property condition issues.

We have reviewed an environmental report, dated November 20, 2019, performed by Broom, Malkin, Miller, LLC. According to this report, "No environmental testing was conducted due to the date of construction and being located in Radon Zone 3, therefore no action required."

Conclusion

Overall, the location and functional utility of the subject site is average.

Zoning and Legal Restrictions

Zoning Map

Zoning Summary	
Category	Description
Zoning Jurisdiction	City of Macon
Zoning Designation	PDE—Planned Development Extraordinary
Description	<p>The purpose of this chapter is to provide greater design flexibility in the development of land consistent with the comprehensive development plan. The use of planned development zoning classifications should be encouraged when they promote a harmonious variety of uses, provide for an economy of shared services and facilities, are compatible with surrounding areas, and foster the creation of attractive, healthful, efficient, and stable environments for living, shopping or working.</p> <p>The planned development district regulations and procedures may apply to the development of presently open or vacant lands and may apply to parcels of relatively small size as well as large scale development, depending upon the nature of the proposed use and improvements and their relationship with other surrounding uses and the overall characteristics of the area in which they are located.</p> <p>Planned development district regulations are intended to encourage innovations in land development techniques so that the changing demands of the community may be met with greater flexibility and variety in type, design, and layout of sites and buildings and by the conversion and more efficient use of open spaces and other amenities generally enhancing the quality of life.</p> <p>Planned development projects should also encourage a more efficient use of land which reflects changes in the technology and economics of land development so that resulting economies may accrue to the benefit of the community at large.</p> <p>PDR, PDC, PDI and PDE districts differ from each other in the nature of the uses permitted.</p>
Legally Conforming?	Yes
Zoning Change Likely?	Unlikely
Permitted Uses	Site plan specific
Other	Lot size, density, yard requirements, height requirements, signs, parking, and other development standards as approved by the commission.

Compiled by NKF

We are not experts in the interpretation of zoning ordinances. We have reviewed a Zoning Report, dated December 3, 2019, performed by NV5. The zoning report provided the following conclusions:

“The current zoning district for the subject property is PDE, Planned Development Extraordinary. The use of multifamily developments is permitted by right in the PDE zoning district. No active zoning or building code violations have been disclosed that would affect the subject property. The following fire code violations have been disclosed that would affect the subject property: exit and emergency lighting not operable, must maintain 3’ clearance in front of electrical panel box, spacers are needed for opening spaces in electrical panel box, housekeeping, expose wires, fire extinguishers should be serviced every year and all fire extinguishers need to be checked and in place, see attached documentation. Per Zoning Director, Randi Doveton, “I can tell you that I do not have any open violations. I cannot tell you that is conforming to what was approved because those files are in off-site storage and you would have to provide a current as build survey and order the off-site file for comparison. My

experience has been that the older the file, the less information /significant information is in it, so it may not even have a good /legible site plan in it.” The original zoning permit #87-2438 was issued on September 25, 1987 for a 144-unit apartment complex. Due to the age of the original application files-site plan information, etc. is not available. Upon comparing current applicable PDE zoning code requirements to existing property conditions as noted on the survey, no nonconformities were disclosed. Conformance to current parking regulations could not be determined as the unit count/breakdown is unknown. No factors have been disclosed by this report that would preclude the property from being rebuilt in accordance with municipal zoning code requirements in the event of damage or destruction.”

Conclusion

The subject is zoned for site specific use per the PDE zoning. There are no known violations with the subject’s development.

Three Bedroom

Floor Plan

The subject is a Class B multifamily-garden/low-rise development known as Anthos at Hidden Lakes, located at 180 Hidden Lake Court, Macon, GA 31204. The subject was built in 1988. Anthos at Hidden Lakes is comprised of 19 buildings. The unit mix consists of 52 one-bedroom one-bath at 890 square feet, 72 two-bedroom two-bath at 1,230 square feet and 20 three-bedroom 2-bath at 1,390 square feet. Hidden Lakes has washer dryer connections in all units. The improvements are more fully described in the following table.

Property Condition

Recent Renovations

Within the past three years the subject has spent a total of \$286,874 in cap ex for FF&E, Appliances, Exterior Maintenance, Carpet/Flooring, Labor, Roof Repair and Roads, Trees and Grounds.

Property Condition Report

We have reviewed a Property Condition Report, dated November 13, 2019, performed by NV5. The PCR report provided the following conclusions:

A. CRITICAL REPAIR WORK AND RECOMMENDATIONS

- Replace the 49 missing 5 lb. fire extinguishers across all buildings

- Have remaining existing 5 lb. fire extinguishers tested, re-charged, and recertified
- Determine responsible party for temporary electric service feed at Building J

B. REQUIRED/RECOMMENDED REPAIR OR IMPROVEMENTS

The items listed below are considered to be non-critical, but items that should be addressed.

These items are also referenced in the text, "Scope of Work" and in our Cost Projections. Please review the Building-by-Building report for details of specific items that will need repair:

- Building repairs as identified in the Building-by-Building report
- Seal and stripe parking lot
- Power wash buildings
- Install drain system at Building I
- Stabilize stairways at Building I
- Re-paint shutters, gable vents, and metal decks
- Seal/stain rear wood decks and newly installed wood stairs
- Re-align support beams and re-secure joists
- Repair fogged windows
- Fix swing set
- Budget for ongoing HVAC replacements

The total cost of recommended repair work is \$59,825 per the PCR. In addition to the recommended repair work, the PCR recommended \$202,620 in estimated capital needs over the next four years. We assume the planned renovation will take care of the PCR recommendations.

Deferred Maintenance

Our observation of the property, and the conclusions of the Property Condition Report referenced above, indicated no significant items of deferred maintenance.

Other Property Considerations

Functional Utility

Based on our inspection and consideration of its current and/or future use as well as review of individual floor plans and the overall complex, there do not appear to be any significant items of functional obsolescence.

ADA Compliance

Based on our observation as well as any information provided, no ADA compliance issues were noted. However, the client is advised to obtain review by a qualified professional versed in ADA compliance as we do not have expertise.

Personal Property

Certain items in apartment projects are sometimes considered personal property, such as furniture, fixtures or equipment. These items include kitchen appliances (stove, refrigerator and dishwasher) in each unit and various items in the common areas including miscellaneous maintenance tools, pool furniture, leasing office furniture, recreational room and clubhouse furniture, and various exercise machines. The apartment units are rented on an unfurnished basis. However, typically personal property is included in the sale of multifamily apartment complexes. The personal property items contained in the subject are not considered to contribute significantly to the overall value of the real estate.

Building Improvements Summary

The improvements are of average quality construction and are in average condition.

Conclusion

The property consists of 18 residential structures/addresses with 144 residential units, one leasing building, and one maintenance building.

- Net rentable area for this property is approximately 162,640 sf
- The property is reported to be 29 years old (1990)
- The overall property conditions are fair

The property itself is in a fair overall condition.

- Drives and parking areas are in a serviceable condition
- The roofs are of a pitched design with asphalt shingles
- Each unit is accessed off of a concrete walkway or second floor deck (wood or metal)
- Landscaping is in a generally fair condition
- The site is generally rectangular in shape
- Concrete walks and steps are in a fair-to-good condition with some areas of toe-catches
- The buildings are of a wood frame construction
- Building exteriors are of wood framing and vinyl siding
- Buildings are of two-stories
- Foundations appear to be slab-on-grade poured concrete on most buildings, and CMU block with wood joists on some buildings (H, I, and J)
- Windows are aluminum double pane, single hung systems

Common areas are in a good overall condition.

- Common area steps, stairs, and handrails are in a good overall condition, with management reporting many stair treads having been replaced during a recent capital project.
- Inspectors note though, that sealing/staining is needed

- Residential units include one, two, and three-bedroom flats
- Apartment interiors for units are in a generally good condition
- Walls and ceilings are in a fair-to-good condition
- Appliances are in a fair-to-serviceable condition
- Cabinetry is mostly original and in a fair-to-good condition, age considered
- Countertops are mostly original and in fair condition, with many needing resurfacing or replacement at the next move-out
- Flooring is a combination of newly replaced and original vinyl flooring and carpeting in varying configurations
- Apartments had hardwired smoke detectors

Heating is provided by an electric air handler (furnace), with heat pumps. A/C is provided by exterior-mounted condensing units, almost all utilizing traditional R-22 coolant.

Hot water is provided by 30-gallon electric unit-installed water heaters.

Plumbing system and fixtures are in a good condition. All visible domestic plumbing lines are copper. Drain lines are of PVC

Electric service to units is rated at 150-AMPS The existing wiring is:

- Aluminum mains, aluminum 220 lines (range and dryer circuits), and copper branch circuits

Management reported that all roofs have been replaced, except one (Building M), within the last few years. Wood replacements on many stair treads have been performed as well, per management.

Real Estate Taxes

The subject property is obligated to pay taxes to Bibb County. Bibb County assesses commercial property at 40% of estimated market value. The following chart details the taxes for the subject property.

Taxes and Assessments										
Tax Year 2019	Assessor's Market Value			Assessed Value			Millage Rates		Taxes and Assessments

Compiled by NKF

The subject's tax assessment falls in line the average of the assessment comparables. Tax assessments for comparable properties range from \$7,246 - \$14,859 per unit. The subject's 2019 total assessed value of \$11,239 per unit is approximately 0% above the average of the comparable data. The subject's history has been on a downward trend.

Georgia's General Assembly, House and Senate passed Senate Bill 346 in 2010. The Assessment and Appeals reform bill was aimed at ensuring all Georgia properties are properly assessed at

Fair Market Value and that property owners have guaranteed rights to appeal. Georgia state law mandates that, "properties sold the previous year must be valued at or below the purchase or acquisition price in a qualified, arms-length transaction including bank sales and foreclosures."

It is our opinion that most prudent investors are allowing for change in real estate assessment/taxes in instances where the current assessment is notably different than the market value. The tax comparables demonstrate a large range of tax values, and indicate the subject's 2019 tax value is in line with the average on a per unit basis. We have found that a typical ratio in Bibb County of a tax value to market value is within the range of 70% to 80%. Our concluded taxes are based on a ratio of 70% of the concluded market value which places the subject above the comparable range.

Highest and Best Use

As Vacant

Legally Permissible

The site is zoned PDE—Planned Development Extraordinary which allows for multifamily use. Based on available data and analysis, no other legal restrictions such as easements or deed covenants are present which would impair the utility of the site. Given that surrounding properties have similar zoning and the future land use plan is focused on similar uses as well, it is unlikely that there would be a change of zoning classification. Further information and analysis about the legal restrictions to the subject property is included in the Site Analysis and Zoning and Legal Restrictions sections of this report.

Physically Possible

The subject site contains 547,549 square feet (12.570 acres), has favorable topography, adequate access, and all necessary utilities to support the range of legally permissible uses. No significant physical limitations were noted. The size of the site is typical for the categories of uses allowed under zoning. In total, the site is physically capable of supporting the legally permissible uses.

Financially Feasible

Of the legally permissible and physically possible uses, only multifamily use appears most probable based on observation of surrounding properties as well as the location. This use is more fully analyzed for their financial feasibility.

Given the underlying market conditions and activity, it appears that a multifamily development would have a sufficient degree of feasibility.

Maximally Productive

The test of maximum productivity is to determine the actual use of the property that results in the highest land value and/or the highest return to the land. It is important to consider the risk of potential uses as a use that may generate the highest returns in cash could also be the riskiest and thus not as likely for a developer to consider. In this case, the maximally productive use is a multifamily development. The associated risk is typical and market conditions appear to be supportive.

Highest and Best Use Conclusion – As Vacant

The highest and best use of the subject as though vacant is the development of a multifamily use.

As Improved

Legally Permissible

Per the County Planning and Development Office, the existing multifamily improvements appear to be legally conforming to zoning.

Physically Possible

The current improvements conform to the physical characteristics of the site. Therefore, continued multifamily use of the property is reasonably probable and appropriate.

Financially Feasible

Financial feasibility focuses on positive and excess returns from the improved property. In this case, the subject is an income producing property and is capable of generating sufficient income to support the continuation of the use. This is demonstrated in the income capitalization approach by the fact that a positive income stream can be generated.

Maximally Productive

The existing multifamily improvements are legally permissible, physically possible, and financially feasible. The concluded value as though improved exceeds the value of the underlying land and removal of the improvements for redevelopment or substantial conversion to an alternative use is not indicated based on current neighborhood trends. Given no alternatives, the maximally productive use of the property is consistent with the existing multifamily development.

Highest and Best Use – As Improved

Therefore, the highest and best use of the subject as improved is the existing multifamily use. Market and economic conditions are supportive of this continued use.

Most Probable Buyer

The most likely buyer would be an investment partnership.

Appraisal Methodology

Cost Approach

The cost approach is based on the proposition that the informed purchaser would pay no more for the subject than the cost to produce a substitute property with equivalent utility. This approach is particularly applicable when the property being appraised involves relatively new improvements that represent the highest and best use of the land, or when it is improved with relatively unique or specialized improvements for which there exist few sales or leases of comparable properties.

Sales Comparison Approach

The sales comparison approach utilizes sales of comparable properties, adjusted for differences, to indicate a value for the subject. Valuation is typically accomplished using physical units of comparison such as price per square foot, price per unit, price per floor, etc., or economic units of comparison such as gross rent multiplier. Adjustments are applied to the property units of comparison derived from the comparable sale. The unit of comparison chosen for the subject is then used to yield a total value.

Income Capitalization Approach

The income capitalization approach reflects the subject's income-producing capabilities. This approach is based on the assumption that value is created by the expectation of benefits to be derived in the future. Specifically estimated is the amount an investor would be willing to pay to receive an income stream plus reversion value from a property over a period of time. The two common valuation techniques associated with the income capitalization approach are direct capitalization and the discounted cash flow (DCF) analysis.

Application of Approaches to Value

Approach	Comments
Cost Approach	The Cost Approach is not applicable and is not utilized in this appraisal.
Sales Comparison Approach	The Sales Comparison Approach is applicable and is utilized in this appraisal.
Income Capitalization Approach	The Income Capitalization Approach is applicable and is utilized in this appraisal.

Compiled by NKF

The cost approach was not used because the age and condition of the improvements makes depreciation highly speculative. More significantly, however, market participants considering properties like the subject do not give consideration to the cost approach. The exclusion of this approach is not considered to impact the reliability of the appraisal.

Insurable Value

Insurable value is based on the replacement and/or reproduction cost of physical items that are subject to loss from hazards. The Dictionary of Real Estate Appraisal, 6th Edition defines insurable value as:

- ❖ A type of value for insurance purposes. See also Insurable Replacement Cost [Replacement cost for Insurance Purposes].
- ❖ Replacement cost for Insurance Purposes - The estimated cost, at current prices as of the effective date of valuation, of a substitute for the building being valued, using modern materials and current standards, design, and layout for insurance coverage purposes guaranteeing that damaged property is replaced with new property (i.e., depreciation is not deducted).

Provision of an Insurable Value by the Appraiser does not change the intended use or user of this Report. No liability is assumed for the Insurable Value estimate provided and it does not guarantee that any estimate or opinion will result in the Property being fully insured for any possible loss that may be sustained. It is recommended that an insurance professional be consulted. The Insurable Value estimate may not be a reliable indication of the replacement or reproduction cost for any date other than the effective date of this Report due to changing costs of labor and materials and due to the changing building codes and governmental regulations and requirements.

Absent of specific instructions from the Client, which were not provided, we have calculated insurable value to be replacement cost new of the building improvements, less insurance exclusions. Our estimate of insurable value does not include land value, entrepreneurial profit, depreciation, site improvements, and/or the costs to demolish damaged structures.

We further note that we were not provided with, nor have we reviewed a policy associated with the subject improvements. Given the variance in insurable value calculation methodologies, reliance in our estimate should only be made when the estimates made herein are consistent with the in-place policy.

Insurable Replacement Cost and Insurable Value

Sales Comparison Approach

The sales comparison approach value is derived by analyzing closed sales, listings, or pending sales of properties that are similar to the subject. The sales comparison approach includes the following steps.

- ❑ Research and verify information on properties in the competitive market that are similar to the subject and that have recently sold, are listed for sale, or are under contract.
- ❑ Select the most relevant units of comparison in the market and develop a comparative analysis.
- ❑ Examine and quantify via adjustments differences between the comparable sales and the subject property using all appropriate elements of comparison.
- ❑ Reconcile the various value indications to a value bracket and then a single value indication.

The unit of comparison applied in this sales comparison analysis is price per unit as it mirrors the primary comparison method used by market participants.

Analysis of Improved Comparable Data

Comparable One

Sale Comparable One represents the November 2019 sale of a 275,316 square foot garden/low-rise property located at 301 Barrington Hall Drive, Macon, Georgia. This is a garden style multifamily development with 176 units. The property was 98% occupied at the time of sale and traded with a 5.90% capitalization rate.

No transaction adjustments were warranted.

This comparable required a downward age/condition adjustment due to its newer year of construction. We have applied a downward adjustment for features/amenities due to this property's additional amenities. A downward adjustment was made for average unit size (sf) due to its larger average unit size. Net downward property adjustments were indicated. Combining transaction and property adjustments, results in a price per unit indication of \$71,058.

Comparable Two

Sale Comparable Two represents the October 2018 sale of a 143,999 square foot garden/low-rise property located at 461 Forest Hill Rd., Macon, Georgia. This comparable represents the sale of Magnolia Crossing, a 116-unit Class B garden apartment community located along the east side of Forest Hill Road, just north of Vineville Road in the north central area of Macon, Bibb County, GA. The garden apartment property was built in 1979 and 1980 and was 94% leased at the time of sale. Property amenities include a swimming pool, playground, and fire pit. Unit amenities include washer/dryer connections, and walk-in closets. Six of units have fireplaces. The buyer plans to renovate 60% (70) of the units and perform common area renovations/upgrades over the first year of ownership. The indicated cap rate was 6.08% on trailing income and expenses including reserves and adjusted taxes.

An upward adjustment for market conditions (time) is applicable due to increasing value trends in the local market. Recent listing and closed transaction data indicates net price appreciation has occurred since October, 2018.

This comparable required an upward adjustment for age/condition due to its older year of construction. Net upward property adjustments were indicated. Combining transaction and property adjustments, results in a price per unit indication of \$75,519.

Comparable Three

Sale Comparable Three represents the August 2018 sale of a 250,200 square foot garden/low-rise property located at 5577 Houston Rd., Macon, Georgia. This comparable represents the sale of Rutland Place, a 228-unit Class B garden apartment community located along the west side of Houston Road, north of Hartley Bridge Road in the south-central area of Macon, Bibb County, GA. The garden apartment property was built in 1997 and was 90% leased at the time of sale. Property

amenities include a swimming pool, clubhouse, business center, laundry facility, and fitness center. Unit amenities include washer/dryer connections, and custom cabinetry. The buyer reportedly plans unit and common area renovations/upgrades. The indicated cap rate was 5.75% on the trailing three month income and expenses including reserves and adjusted taxes.

An upward adjustment for market conditions (time) is applicable due to increasing value trends in the local market. Recent listing and closed transaction data indicates net price appreciation has occurred since August, 2018.

This comparable required a downward age/condition adjustment due to its newer year of construction. Net downward property adjustments were indicated. Combining transaction and property adjustments, results in a price per unit indication of \$66,408.

Comparable Four

Sale Comparable Four represents the May 2018 sale of a 327,321 square foot garden/low-rise property located at 6687 Skipper Road, Macon, Georgia. This property sold in May 2018 at a price of \$23,250,000, or \$104,241 per unit, and had an indicated capitalization rate of 5.75%.

An upward adjustment for market conditions (time) is applicable due to increasing value trends in the local market. Recent listing and closed transaction data indicates net price appreciation has occurred since May, 2018.

This comparable required a downward age/condition adjustment due to its newer year of construction. A downward adjustment was made for average unit size (sf) due to its larger average unit size. Net downward property adjustments were indicated. Combining transaction and property adjustments, results in a price per unit indication of \$80,947.

Comparable Five

Sale Comparable Five represents the May 2018 sale of a 212,922 square foot garden/low-rise property located at 444 Forest Hill Rd, Macon, Georgia. This comparable represents the sale of Forest Pointe, a 200-unit Class B apartment community located on the west side of Forest Hill Road, just north of Vineville Road in the central area of Macon, Bibb County, GA. The garden apartment property was built in 1984 and was 95.5% leased at the time of sale. Property amenities include a swimming pool, gated entrance, tennis courts, clubhouse, fitness center, and laundry facility. Unit amenities include washer/dryer connections, and walk-in closets. 50% of the units have fireplaces. 50% of the units were renovated over the past 2 years and the buyer intends to renovate the remaining units over the first year of ownership. The actual cap rate was 6.2% on trailing income and expenses, including reserves and adjusted taxes. The NOI at the time of sale was \$1,094,800.

An upward adjustment for market conditions (time) is applicable due to increasing value trends in the local market. Recent listing and closed transaction data indicates net price appreciation has occurred since May, 2018.

This comparable required a downward age/condition adjustment due to its newer year of construction. We have applied a downward adjustment for features/amenities due to this property's additional amenities. Net downward property adjustments were indicated. Combining transaction and property adjustments, results in a price per unit indication of \$79,560.

Based on our comparative analysis, the following table summarizes the adjustments warranted to each comparable.

Sales Comparison Approach Conclusion

To arrive at an indication of value, primary emphasis is placed on comparables 2 and 5 because of their similar physical and locational characteristic to the subject. Based on the preceding analysis, the value indication by the sales comparison approach is as follows:

Sales Comparison Approach Conclusion

Reconciliation of Price per Unit Indication		Value Indication
Adjusted Value Range - Low		\$66,408
Adjusted Value Range - High		\$80,947
Reconciled As Stabilized Value - Price per Unit	Effective Date: 1/22/2020	\$75,000
Subject Approved Units		144
Reconciled As Is Value - Sales Comparison Approach	Effective Date: 1/22/2020	\$10,800,000

Value Indications*Compiled by NKF*

Income Capitalization Approach

The income capitalization approach reflects the subject's income-producing capabilities. This approach is based on the assumption that value is created by the expectation of benefits to be derived in the future. Specifically estimated is the amount an investor would be willing to pay to receive an income stream plus reversion value from a property over a period of time. The two common valuation techniques associated with the income capitalization approach are direct capitalization and the discounted cash flow (DCF) analysis.

The direct capitalization method is normally more appropriate for properties with relatively stable operating histories and expectations. The DCF analysis is more appropriate for investment properties with multiple or long-term leases, particularly leases with cancellation clauses or renewal options, and especially in volatile markets.

In this analysis, we utilized direct capitalization only because investors and market participants typically rely more on this method.

Rent Roll

A summary rent roll for the property is shown below, based on our review of the owner's rent roll. Market rent will be developed below.

Compiled by NKF

Comparable One

Rental Survey Comparable One represents the January 2020 survey of an 84,530 square foot garden/low-rise property located at 4860 Brookhaven Road, Macon, Georgia. This comparable, known as Brookhaven Townhomes, represents a 104-unit garden apartment complex. There are 1 and 2 bedroom units that offer washer/dryer connections. The community amenities include a pool with picnic area, playground, and laundry facility. Water is \$27 for the 1 bedroom units and \$32 for the 2 bedroom units. The property is 94% occupied. They are not offering any rent specials.

Compared to the subject this property is considered inferior. This is mostly attributed to the smaller unit sizes. As a result, this property's lease rate requires upward adjustment in comparison to the subject.

Comparable Two

Rental Survey Comparable Two represents the January 2020 survey of a 74,160 square foot garden/low-rise property located at 204 Chambers Cove Drive, Macon, Georgia. This comparable,

known as Chambers Cove Apartments, represents a 72-unit garden apartment complex. There are 2 and 3 bedroom units that offer washer/dryer connections. The community amenities include a clubhouse, pool, and storage units. The property is 89% occupied. They are not offering any rent specials.

Compared to the subject this property is considered inferior. This is mostly attributed to the smaller average unit size. As a result, this property's lease rate requires upward adjustment in comparison to the subject.

Comparable Three

Rental Survey Comparable Three represents the January 2020 survey of a 192,376 square foot garden/low-rise property located at 4658 Mercer University Drive, Macon, Georgia. This comparable, known as Summer Park Apartments, represents a 184-unit garden apartment complex. There are 1, 2, and 3 bedroom units that offer vaulted ceilings, balcony, and washer/dryer connections. The community amenities include a tennis court, pool, and fitness center. The property is 91% occupied. They are offering \$50 application fee and no admin fee.

Compared to the subject this property is considered superior. This is mostly attributed to superior condition with upgraded units. As a result, this property's lease rate requires downward adjustment in comparison to the subject.

Comparable Four

Rental Survey Comparable Four represents the January 2020 survey of a 155,425 square foot garden/low-rise property located at 6300 Moseley Dixon Road, Macon, Georgia. This comparable, known as Harbour Club Apartments, represents a 171-unit garden apartment complex. There are 1 and 2 bedroom apartments that offer a balcony/patio and washer/dryer connections. The community amenities include a clubhouse, fitness center, and volleyball court. The property is 97% occupied. They are not offering any rent specials.

Compared to the subject this property is considered superior. This is mostly attributed to superior condition with upgraded units. As a result, this property's lease rate requires downward adjustment in comparison to the subject.

Comparable Five

Rental Survey Comparable Five represents the January 2020 survey of a 152,780 square foot garden/low-rise property located at 159 Steven Drive, Macon, Georgia. This comparable, known as West Club, represents a 140-unit garden apartment complex. There are 1, 2, and 3 bedroom units with walk-in closets, and washer/dryer connections. The community amenities include a clubhouse, pool, and laundry facilities. This comparable is 94% occupied. They are not offering any rent specials.

Compared to the subject this property is considered inferior. This is mostly attributed to the smaller average unit size. As a result, this property's lease rate requires upward adjustment in comparison to the subject.

Comparable Six

Rental Survey Comparable Six represents the January 2020 survey of a 118,800 square foot garden/low-rise property located at 1187 Edna Place, Macon, Georgia. This comparable, known as The Summit, represents a 120-unit garden apartment complex. There are 1, 2, and 3 bedroom units that offer washer/dryer connections. The community amenities include gated access, a playground and laundry facilities. The property is 96% occupied. They are not offering any rent specials. They offer free cable.

Compared to the subject this property is considered inferior. This is mostly attributed to the smaller average unit size. As a result, this property's lease rate requires upward adjustment in comparison to the subject.

Grand Total	144	\$672	\$1,161,012	\$696	\$1,203,360	-3.8%

Compiled by NKF

Loss to Lease

- ❖ Loss to Lease and Concessions often overlap in multifamily operating statements. The subject does not use lease optimization software and increased their rental rates in October to bring them more in line with market. The indicated loss to lease above is caused in large part to the recent increase which has yet to show through to the rent roll and the renewal concessions.

Concessions

- ❖ Some of the rent comparables are reporting specials at this time.
- ❖ Others are utilizing a leasing optimizer such as LRO or Yieldstar and quote effective rates net of concessions.
- ❖ Concessions in the submarket have been declining over the past six months as economic conditions have improved and occupancies have increased.
- ❖ The subject is currently offering \$300 off first month rent, \$200 off second month and \$100 off the third month on a 13 month lease.

Potential Rental Income

■ The Stabilized Pro Forma assumes renovated units.

Vacancy & Collection Loss Allowance

Vacancy Allowance

The vacancy estimate for the subject was previously developed in the market analysis section of this report and was concluded to be 5.00%.

Collection Loss

Based on available data and analysis, the concluded collection loss allowance is 1.00%.

Combined Vacancy and Collection Loss Conclusion

Based on this analysis, the total stabilized vacancy and collection loss allowance for the subject is 6.00%.

Effective Rental Income

Net Expense Recoveries (RUBS)

❖ The NKF estimate emphasizes the most recent actual amounts at the property.

Net Other Income

❖ This includes the categories forfeited deposits, vending machines, application fees, late charges, etc.

❖ The NKF estimate emphasizes the most recent actual amounts at the property.

Effective Gross Income

Our pro forma estimate is slightly above the most recent actual figures due to increases in asking rent and is reasonable considering the market comparables. The budget is based on the pro forma renovated assumption.

Operating Expense Analysis

2019 (T-12 Mos. Operations)	5.3%	\$440	\$63,355
2022 (Budget Operations)	11.1%	\$951	\$136,971
NKF Projection	9.2%	\$795	\$114,538

Compiled by NKF

This expense category includes all local, county, and state property tax levies. Our projection is based on the property assessment and tax rate for the subject, as discussed previously in the Real Estate Tax Analysis.

Insurance

Insurance expense includes property and casualty insurance for the subject.

Utilities

Electricity is separately metered and cable is paid directly by the tenants. Water and Trash is paid as a flat fee by unit type at \$35, \$45 and \$55 per unit and reimbursed to the landlord. The subject does not have a gas expense.

Repairs and Maintenance

Repairs and maintenance includes expenditures to repair and maintain mechanical systems and structural components, encompassing payroll and contract costs, as appropriate. Excluded are alterations and major replacements, which are considered capital costs rather than periodic expenses.

Painting and Decorating

The painting and decorating category is primarily focused on unit turnover.

Grounds

The grounds expense includes all landscaping costs.

Security

Security has been a nominal expense at the subject and is not reflected in the comparables.

Payroll and Benefits

Payroll and benefits includes all employees such as the manager, leasing agents, maintenance personnel, and grounds crew.

Non-Revenue Units

We have included non-revenue at 1 units at market rent for 2 bedroom units.

General/Administrative

General and administrative expenses consist of office expenses as well as legal, accounting and other professional fees, license fees, and business taxes, if any.

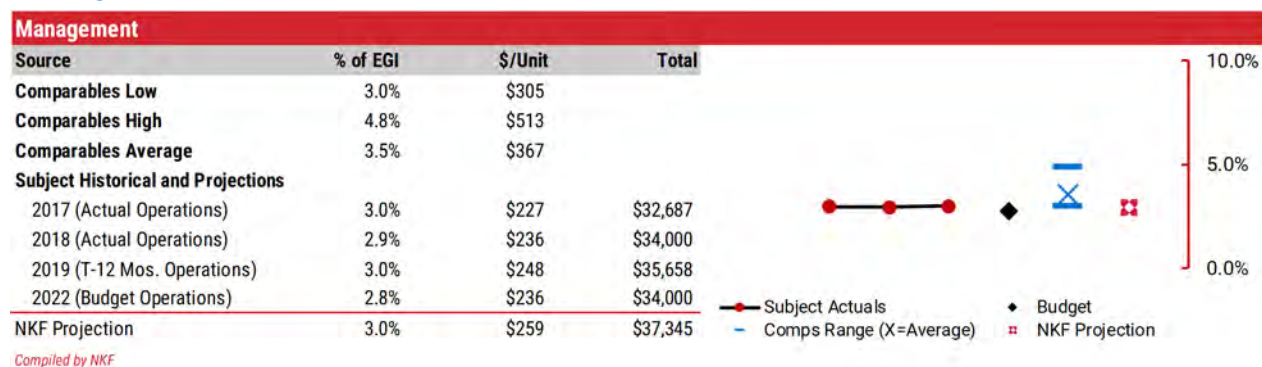

Advertising and Marketing

Advertising and marketing includes both print and internet advertising. Our estimate is in line with the historical and budgeted operations, expense comparables and market norms.

Management

Management fees are considered an expense of operation, whether the services are contracted or provided by the property owner. Typical management fees for properties of this type range from 3% to 5%. Considering the size of the subject and the total annual amount, we project an overall market oriented management fee of 3.0% of effective gross income.

Replacement Reserves

For the subject property type and local market, it is customary to include replacement reserves as an expense line item in developing an estimate of net operating income. Replacement reserves are estimated to account for replacement costs of certain capital items, such as the roof and HVAC system.

Total Operating Expenses

❖ The projected rate is bracketed by the actual and budgeted operating history for the subject and is supported by the expense comparables and market norms.

Net Operating Income

❖ Our estimate is in line with the historical NOI trend.

Direct Capitalization

The following subsections represent different techniques for deriving an overall capitalization rate.

Comparable Sales

Comparable Multifamily Sales Summary							
No.	Property Name	Yr. Built	Sale Date	Number of Approved	Occ. %	Price per Unit	OAR
1	Estates At Barrington	1996	Nov-2019	176	98%	\$94,744	5.90%
2	Magnolia Crossing	1979	Oct-2018	116	94%	\$69,828	6.08%
3	Rutland Place Apartments	1997	Aug-2018	228	90%	\$67,215	5.75%
4	Mill Creek Run	2005	May-2018	225	95%	\$103,778	5.75%
5	Forest Pointe	1984	May-2018	200	95%	\$85,000	6.20%
Average (Mean) Cap Rate:							5.94%

Compiled by NKF

- ✘ The overall rates from the sales are based on both pro-forma income and income in place.

Based on this information, and given our use of pro-forma income, a capitalization rate within a range of 5.75% to 6.25% could be expected for the subject.

Investor Surveys

Investor Surveys - Capitalization Rates				
Source	Period	Low	High	Average
NKF V&A Mkt Survey - National Multifamily - Suburban B	Q3 2019	N/A	N/A	5.65%
PwC - National Apartment - Overall	Q4 2019	3.50%	7.00%	5.15%
Situs RERC - National Apartment - Overall	Q3 2019	4.00%	6.00%	5.10%
Real Capital Analytics - National Apartment - Garden	Q3 2019	N/A	N/A	5.57%

Compiled by NKF

- ❖ The most current national survey data indicates that going-in capitalization rates average 5.10% to 5.65%.
- ❖ The rate appropriate to the subject is considered to be similar to the average rate in the survey data.
- ❖ Accordingly, based on the survey data, a capitalization rate within a range of 5.50% to 5.75% could be expected for the subject.

Market Participants

Market Participant Survey - Capitalization Rates

Respondent	Cap Rate	Comments
Confidential Broker	Low 6.00% range	Based on stabilized income
Subject Indication	Low 6.00% range	

Compiled by NKF

- ❖ Based on these responses, a capitalization rate within a range of 6.00% to 6.25% is indicated for the subject.

Band of Investment

Band of Investment					
Mortgage/Equity Assumptions					
Loan to Value Ratio	70%				
Interest Rate	4.50%				
Amortization (Years)	30				
Mortgage Constant	0.0608				
Equity Ratio	30%				
Equity Dividend Rate	8.00%				
Weighted Average Of Mortgage/Equity Requirements					
Mortgage Requirement	70%	x	6.08%	=	4.26%

Adjustments to Value

Capitalization of the projected stabilized net operating income results in an As Stabilized value indication. To estimate the value Upon Completion, adjustments to the indicated As Stabilized value are required for projected income loss during lease-up (stabilization discount). The As Is value indication is derived by making additional deductions for existing deferred maintenance (remaining cost to complete), and projected capital expenditures.

Direct Capitalization Summary

Net operating income is divided by the capitalization rate to derive the stabilized value of the subject. Valuation of the subject by direct capitalization is shown in the table immediately following.

Income Capitalization Approach			
Summary of Stabilized Net Operating Income			
Item Description	% of Income	\$ / Unit	Total \$
Multifamily Revenue		144 Units	
Rental Income		\$8,357	\$1,203,360
Loss to Lease	-1.50%	(\$125)	(\$18,050)
Concessions	-1.50%	(\$125)	(\$18,050)
Potential Rental Income		\$8,106	\$1,167,259
Vacancy	-5.00%	(\$405)	(\$58,363)
Collection Loss	-1.00%	(\$81)	(\$11,673)
Effective Rental Income		\$7,620	\$1,097,224
Net Expense Reimbursements		\$500	\$72,000

Income Capitalization Approach Conclusion

Income Capitalization Approach - Indicated Value		
Market Value Premise As of Date:	As Is January 22, 2020	Prospective Value January 22, 2022
Direct Capitalization	\$10,450,000	\$10,950,000
Reconciled Value	\$10,450,000	\$10,950,000
Value per Unit	\$72,569	\$76,042

Compiled by NKF

The sole method used is direct capitalization. A discounted cash flow analysis is not used

Reconciliation of Value

The values indicated by our analyses are as follows:

Market Value Indications		
Market Value Premise	As Is	Prospective Value
As of Date:	January 22, 2020	January 22, 2022
Cost Approach:	Not Used	Not Used
Sales Comparison Approach:	\$10,800,000	Not Used
Income Capitalization Approach:	\$10,450,000	\$10,950,000
Market Value Conclusion	\$10,450,000	\$10,950,000

Compiled by NKF

Cost Approach

The Cost Approach has best applicability for properties with new or nearly new improvements. It is a summation approach in that the underlying land value is added to the depreciated replacement cost for the indicated value. In this case, the cost approach was not utilized due to the age of the improvements which results in significant depreciation thereby reducing the reliability of this approach.

Sales Comparison Approach

The Sales Comparison Approach is focused on comparing the subject to sale and other market transactions with the aim to develop an indication of value that is founded on the theory of substitution. Basically, the intention is to determine value through considering the prices of properties which would be a substitute property to the subject. In this case, a selection of reasonably similar sales were obtained and the adjustment process was well founded by reasoning and direct evidence. Although this analysis is considered to be well founded and reliable, the subject property is an income producing property and the sales comparison approach, like the cost approach, is limited in its ability to directly consider the income levels of the subject and the sales. Accordingly, secondary weight is given to the sales comparison approach.

Income Capitalization Approach

The subject property is an apartment property. It is distinctly an income producing property and this approach is specifically designed to address the value of such a property. Only the direct capitalization analyses was developed. Market rent was well established by reasonably similar lease data. Capitalization rates were developed from a number of sources including the sales used in the sales comparison approach. In total, the income capitalization approach is considered to be most applicable to the subject and most reliable. This approach is given greatest weight for that reason.

Value Conclusions

Appraisal Premise	Interest Appraised	Date of Value	Value Conclusion
Market Value "As Is"	Leased Fee	1/22/2020	\$10,450,000
Prospective Market Value	Leased Fee	1/22/2022	\$10,950,000

Compiled by NKF

Extraordinary Assumptions and Hypothetical Conditions

An extraordinary assumption is defined in USPAP as an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions. The value conclusions are subject to the following extraordinary assumptions that may affect the assignment results.

1. The prospective market value at stabilization assumes the stabilized operation of the property as of the stabilization date (effective date of value).

The use of this extraordinary assumption might have affected assignment results.

A hypothetical condition is defined in USPAP as a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. The value conclusions are based on the following hypothetical conditions that may affect the assignment results.

1. None

Compiled by NKF

Exposure Time

Exposure time is the estimated length of time the subject property would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. It is a retrospective estimate based on an analysis of past events assuming a competitive and open market.

The following is national investor survey data which is one source for the underlying data to this conclusion.

Investor Surveys - Marketing Times

Source	Period	Low	High	Average
NKF V&A Mkt Survey - National Multifamily - Suburban B	Q3 2019	N/A	N/A	5.0
PwC - National Apartment - Overall	Q4 2019	1.0	9.0	3.9
Situs RERC - National Apartment - Overall	Q3 2019	N/A	N/A	5.0

Compiled by NKF

Recent sales transaction data for similar properties, supply and demand characteristics for the local multifamily market, and the opinions of local market participants were reviewed and analyzed. Based on this data and analysis, it is our opinion that the probable exposure time for the subject at the concluded market values stated previously is 6 months.

Marketing Time

Marketing time is an opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value level during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which is always presumed to precede the effective date of an appraisal. As no significant changes in market conditions are foreseen in the near term, it is our opinion that a reasonable marketing period for the subject is likely to be the same as the exposure time. Accordingly, we estimate the subject’s marketing period at 6 months.

Assumptions and Limiting Conditions

The Appraisal contained in this Report (herein “Report”) is subject to the following assumptions and limiting conditions:

1. Unless otherwise stated in this report, title to the property which is the subject of this report (herein “Property”) is assumed to be good and marketable and free and clear of all liens and encumbrances and that there are no recorded or unrecorded matters or exceptions to title that would adversely affect marketability or value. No responsibility is assumed for the legal description, zoning, condition of title or any matters which are legal in nature or otherwise require expertise other than that of a professional real estate appraiser. This report shall not constitute a survey of the Property.
2. Unless otherwise stated in this report, it is assumed: that the improvements on the Property are structurally sound, seismically safe and code conforming; that all building systems (mechanical/electrical, HVAC, elevator, plumbing, etc.) are in good working order with no major deferred maintenance or repair required; that the roof and exterior are in good condition and free from intrusion by the elements; that the Property and improvements conform to all applicable local, state, and federal laws, codes, ordinances and regulations including environmental laws and regulations. No responsibility is assumed for soil or subsoil conditions or engineering or structural matters. The Property is appraised assuming that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimates contained in this report is based, unless otherwise stated. The physical condition of the Property reflected in this report is solely based on a visual inspection as typically conducted by a professional appraiser not someone with engineering expertise. Responsible ownership and competent property management are assumed.
3. Unless otherwise stated in this report, this report did not take into consideration the existence of asbestos, PCB transformers or other toxic, hazardous, or contaminated substances or underground storage tanks, or the cost of encapsulation, removal or remediation thereof. Real estate appraisers are not qualified to detect such substances. The presence of substances such as asbestos, urea formaldehyde foam insulation, contaminated groundwater or other potentially hazardous materials and substances may adversely affect the value of the Property. Unless otherwise stated in this report, the opinion of value is predicated on the assumption that there is no such material or substances at, on or in the Property.
4. All statements of fact contained in this report as a basis of the analyses, opinions, and conclusions herein are true and correct to the best of the appraiser's actual knowledge and belief. The appraiser is entitled to and relies upon the accuracy of information and material furnished by the owner of the Property or owner's representatives and on information and data provided by sources upon which members of the appraisal profession typically rely and that are deemed to be reliable by such members. Such information and data obtained from third party sources are assumed to be reliable and have not been independently verified. No warranty is made as to the accuracy of any of such information and data. Any material error in any of the said information or data could have a

substantial impact on the conclusions of this Report. The appraiser reserves the right to amend conclusions reported if made aware of any such error.

5. The opinion of value stated in this report is only as of the date of value stated in this report. An appraisal is inherently subjective and the conclusions stated apply only as of said date of value, and no representation is made as to the effect of subsequent events. This report speaks only as of the date hereof.
6. Any projected cash flows included in the analysis are forecasts of estimated future operating characteristics and are predicated on the information and assumptions contained within this report. Any projections of income, expenses and economic conditions utilized in this report are not predictions of the future. Rather, they are estimates of market expectations of future income and expenses. The achievement of any financial projections will be affected by fluctuating economic conditions and is dependent upon other future occurrences that cannot be assured. Actual results may vary from the projections considered herein. There is no warranty or assurances that these forecasts will occur. Projections may be affected by circumstances beyond anyone's knowledge or control. Any income and expense estimates contained in this report are used only for the purpose of estimating value and do not constitute predictions of future operating results.
7. The analyses contained in this report may necessarily incorporate numerous estimates and assumptions regarding Property performance, general and local business and economic conditions, the absence of material changes in the competitive environment and other matters. Some estimates or assumptions, however, inevitably will not materialize, and unanticipated events and circumstances may occur; therefore, actual results achieved during the period covered by the analysis will vary from estimates, and the variations may be material.
8. All prospective value opinions presented in this report are estimates and forecasts which are prospective in nature and are subject to considerable risk and uncertainty. In addition to the contingencies noted in the preceding paragraphs, several events may occur that could substantially alter the outcome of the estimates such as, but not limited to changes in the economy, interest rates, capitalization rates, behavior of consumers, investors and lenders, fire and other physical destruction, changes in title or conveyances of easements and deed restrictions, etc. In making prospective estimates and forecasts, it is assumed that conditions reasonably foreseeable at the present time are consistent or similar with the future.
9. The allocations of value for land and improvements must not be used in conjunction with any other appraisal and are invalid if so used. This report shall be considered only in its entirety. No part of this report shall be utilized separately or out of context.
10. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraiser, or any reference to the Appraisal Institute) shall be disseminated through advertising media, public relations media, news media or any other means of communication (including without limitation prospectuses, private offering memoranda and other offering material provided to prospective investors) without the prior written consent of the Firm. Possession of this report, or a copy hereof, does not carry with it the right of publication.
11. Client and any other Intended User identified herein should consider this report and the opinion of value contained herein as only one factor together with its own independent considerations and

underwriting guidelines in making any decision or investment or taking any action regarding the Property. Client agrees that Firm shall not be responsible in any way for any decision of Client or any Intended User related to the Property or for the advice or services provided by any other advisors or contractors. The use of this report and the appraisal contained herein by anyone other than an Intended User identified herein, or for a use other than the Intended Use identified herein, is strictly prohibited. No party other than an Intended User identified herein may rely on this report and the appraisal contained herein.

12. Unless otherwise stated in the agreement to prepare this report, the appraiser shall not be required to participate in or prepare for or attend any judicial, arbitration, or administrative proceedings.
13. The Americans with Disabilities Act (ADA) became effective January 26, 1992. No survey or analysis of the Property has been made in connection with this report to determine whether the physical aspects of the improvements meet the ADA accessibility guidelines. No expertise in ADA issues is claimed, and the report renders no opinion regarding the Property's compliance with ADA regulations. Inasmuch as compliance matches each owner's financial ability with the cost to cure the non-conforming physical characteristics of a property, a specific study of both the owner's financial ability and the cost to cure any deficiencies would be needed for the Department of Justice to determine compliance.
14. Acceptance and/or use of this report constitutes full acceptance of these Assumptions and Limiting Conditions and any others contained in this report, including any Extraordinary Assumptions and Hypothetical Conditions, and is subject to the terms and conditions contained in the agreement to prepare this report and full acceptance of any limitation of liability or claims contained therein.

Addendum A

Glossary of Terms

The following definitions are derived from The Dictionary of Real Estate Appraisal, 6th ed. (Chicago: Appraisal Institute, 2015).

- ◆ **Absorption Period:** The actual or expected period required from the time a property, group of properties, or commodity is initially offered for lease, purchase, or use by its eventual users until all portions have been sold or stabilized occupancy has been achieved.
- ◆ **Absorption Rate:** 1) Broadly, the rate at which vacant space in a property or group of properties for sale or lease has been or is expected to be successfully sold or leased over a specified period of time. 2) In subdivision analysis, the rate of sales of lots or units in a subdivision.
- ◆ **Ad Valorem Tax:** A tax levied in proportion to the value of the thing(s) being taxed. Exclusive of exemptions, use-value assessment provisions, and the like, the property tax is an ad valorem tax. (International Association of Assessing Officers [IAAO])
- ◆ **Assessed Value:** The value of a property according to the tax rolls in ad valorem taxation; may be higher or lower than market value, or based on an assessment ratio that is a percentage of market value.
- ◆ **Cash Equivalency:** An analytical process in which the sale price of a transaction with nonmarket financing or financing with unusual conditions or incentives is converted into a price expressed in terms of cash or its equivalent.
- ◆ **Contract Rent:** The actual rental income specified in a lease.
- ◆ **Disposition Value:** The most probable price that a specified interest in property should bring under the following conditions: 1) Consummation of a sale within a specified time, which is shorter than the typical exposure time for such a property in that market. 2) The property is subjected to market conditions prevailing as of the date of valuation. 3) Both the buyer and seller are acting prudently and knowledgeably. 4) The seller is under compulsion to sell. 5) The buyer is typically motivated. 6) Both parties are acting in what they consider to be their best interests. 7) An adequate marketing effort will be made during the exposure time. 8) Payment will be made in cash in US dollars (or the local currency) or in terms of financial arrangements comparable thereto. 9) The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. This definition can also be modified to provide for valuation with specified financing terms.
- ◆ **Effective Rent:** Total base rent, or minimum rent stipulated in a lease, over the specified lease term minus rent concessions; the rent that is effectively paid by a tenant net of financial concessions provided by a landlord.
- ◆ **Excess Land:** Land that is not needed to serve or support the existing use. The highest and best use of the excess land may or may not be the same as the highest and best use of the improved parcel. Excess land has the potential to be sold separately and is valued separately. See also **surplus land**.

- ◆ **Excess Rent:** The amount by which contract rent exceeds market rent at the time of the appraisal; created by a lease favorable to the landlord (lessor) and may reflect unusual management, unknowledgeable or unusually motivated parties, a lease execution in an earlier, stronger rental market, or an agreement of the parties.
- ◆ **Exposure Time:** 1) The time a property remains on the market. 2) [The] estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.
- ◆ **Extraordinary Assumption:** An assumption, directly related to a specific assignment, as of the effective date of the assignment results, which, if found to be false, could alter the appraiser's opinions or conclusions. See also **hypothetical condition**.
- ◆ **Fee Simple Estate:** Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.
- ◆ **Floor Area Ratio (FAR):** The relationship between the above-ground floor area of a building, as described by the zoning or building code, and the area of the plot on which it stands; in planning and zoning, often expressed as a decimal, e.g., a ratio of 2.0 indicates that the permissible floor area of a building is twice the total land area.
- ◆ **Frictional Vacancy:** The amount of vacant space needed in a market for its orderly operation. Frictional vacancy allows for move-ins and move-outs.
- ◆ **Full Service Lease:** See **gross lease**.
- ◆ **General Vacancy:** A method of calculating any remaining vacancy and collection loss considerations when using discounted cash flow (DCF) analysis, where turnover vacancy has been used as part of the income estimate. The combined effects of turnover vacancy and general vacancy relate to total vacancy and collection loss.
- ◆ **Going-Concern Premise:** One of the premises under which the total assets of a business can be valued; the assumption that a company is expected to continue operating well into the future (usually indefinitely).
- ◆ **Going Concern Value:** An outdated label for the market value of all the tangible and intangible assets of an established and operating business with an indefinite life, as if sold in aggregate; more accurately termed the market value of the going concern or market value of the total assets of the business.
- ◆ **Gross Building Area (GBA):** 1) Total floor area of a building, excluding unenclosed areas, measured from the exterior of the walls of the above grade area. This includes mezzanines and basements if and when typically included in the market area of the type of property involved. 2) Gross leasable area plus all common areas. 3) For residential space, the total area of all floor levels measured from the exterior of the walls and including the superstructure and substructure basement; typically does not include garage space.

- ◆ **Gross Lease:** A lease in which the landlord receives stipulated rent and is obligated to pay all of the property's operating and fixed expenses; also called full-service lease.
- ◆ **Hypothetical Condition:** 1) A condition that is presumed to be true when it is known to be false. (Appraisal Institute: The Standards of Valuation Practice [SVP]) 2) A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. See also **extraordinary assumption**.
- ◆ **Intended Users:** 1) The party or parties the valuer intends will use the report. (SVP) 2) The client and any other party as identified, by name or type, as users of the appraisal or appraisal review report by the appraiser on the basis of communication with the client at the time of the assignment. (USPAP, 2016-2017 ed.)
- ◆ **Investment Value:** 1) The value of a property to a particular investor or class of investors based on the investor's specific requirements. Investment value may be different from market value because it depends on a set of investment criteria that are not necessarily typical of the market. 2) The value of an asset to the owner or a prospective owner for individual investment or operational objectives. (International Valuation Standards [IVS])
- ◆ **Land-to-Building Ratio:** The proportion of land area to gross building area; one of the factors determining comparability of properties.
- ◆ **Lease:** A contract in which the rights to use and occupy land, space, or structures are transferred by the owner to another for a specified period of time in return for a specified rent.
- ◆ **Leased Fee Interest:** The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires.
- ◆ **Leasehold Interest:** The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease.
- ◆ **Lessee:** One who has the right to occupancy and use of the property of another for a period of time according to a lease agreement.
- ◆ **Lessor:** One who conveys the rights of occupancy and use to others under a lease agreement.
- ◆ **Liquidation Value:** The most probable price that a specified interest in property should bring under the following conditions: 1) Consummation of a sale within a short time period. 2) The property is subjected to market conditions prevailing as of the date of valuation. 3) Both the buyer and seller are acting prudently and knowledgeably. 4) The seller is under extreme compulsion to sell. 5) The buyer is typically motivated. 6) Both parties are acting in what they consider to be their best interests. 7) A normal marketing effort is not possible due to the brief exposure time. 8) Payment will be made in cash in US dollars (or the local currency) or in terms of financial arrangements comparable thereto. 9) The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone

associated with the sale. This definition can also be modified to provide for valuation with specified financing terms.

- ◆ **Market Rent:** The most probable rent that a property should bring in a competitive and open market reflecting the conditions and restrictions of a specified lease agreement, including the rental adjustment and revaluation, permitted uses, use restrictions, expense obligations, term, concessions, renewal and purchase options, and tenant improvements (TIs).
- ◆ **Market Value:** A type of value that is the major focus of most real property appraisal assignments. Both economic and legal definitions of market value have been developed and refined, such as the following. 1) The most widely accepted components of market value are incorporated in the following definition: The most probable price, as of a specified date, in cash, or in terms equivalent to cash, or in other precisely revealed terms, for which the specified property rights should sell after reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably, and for self-interest, and assuming that neither is under undue duress. 2) Market value is described, not defined, in the Uniform Standards of Professional Appraisal Practice (USPAP) as follows: A type of value, stated as an opinion, that presumes the transfer of a property (i.e., a right of ownership or a bundle of such rights), as of a certain date, under specific conditions set forth in the definition of the term identified by the appraiser as applicable in an appraisal. ²
- ◆ **Market Value of the Going Concern:** The market value of an established and operating business including the real property, personal property, financial assets, and the intangible assets of the business.
- ◆ **Marketing Time:** An opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value level during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which is always presumed to precede the effective date of an appraisal.
- ◆ **Modified Gross Lease:** A lease in which the landlord receives stipulated rent and is obligated to pay some, but not all, of the property's operating and fixed expenses. Since assignment of expenses varies among modified gross leases, expense responsibility must always be specified. In some markets, a modified gross lease may be called a double net lease, net net lease, partial net lease, or semi-gross lease.
- ◆ **Net Lease:** A lease in which the landlord passes on all expenses to the tenant. See also **gross lease;** **modified gross lease.**
- ◆ **Net Net Net Lease:** An alternative term for a type of net lease. In some markets, a net net net lease is defined as a lease in which the tenant assumes all expenses (fixed and variable) of operating a property except that the landlord is responsible for structural maintenance, building reserves, and management; also called NNN lease, triple net lease, or fully net lease.

² The actual definition of value used for this appraisal is contained within the body of the report. The definition of market value given above is general in viewpoint and is only provided for amplification.

- ◆ **Occupancy Rate:** 1) The relationship or ratio between the potential income from the currently rented units in a property and the income that would be received if all the units were occupied. 2) The ratio of occupied space to total rentable space in a building.
- ◆ **Overage Rent:** The percentage rent paid over and above the guaranteed minimum rent or base rent; calculated as a percentage of sales in excess of a specified breakpoint sales volume.
- ◆ **Percentage Rent:** Rental income received in accordance with the terms of a percentage lease; typically derived from retail store and restaurant tenants and based on a certain percentage of their gross sales.
- ◆ **Prospective Opinion of Value:** A value opinion effective as of a specified future date. The term does not define a type of value. Instead, it identifies a value opinion as being effective at some specific future date. An opinion of value as of a prospective date is frequently sought in connection with projects that are proposed, under construction, or under conversion to a new use, or those that have not yet achieved sellout or a stabilized level of long-term occupancy.
- ◆ **Rentable Area:** For office or retail buildings, the tenant's pro rata portion of the entire office floor, excluding elements of the building that penetrate through the floor to the areas below. The rentable area of a floor is computed by measuring to the inside finished surface of the dominant portion of the permanent building walls, excluding any major vertical penetrations of the floor. Alternatively, the amount of space on which the rent is based; calculated according to local practice.
- ◆ **Retrospective Value Opinion:** A value opinion effective as of a specified historical date. The term retrospective does not define a type of value. Instead, it identifies a value opinion as being effective at some specific prior date. Value as of a historical date is frequently sought in connection with property tax appeals, damage models, lease renegotiation, deficiency judgments, estate tax, and condemnation. Inclusion of the type of value with this term is appropriate, e.g., "retrospective market value opinion."
- ◆ **Shell Rent:** The typical rent paid for retail, office, or industrial tenant space based on minimal "shell" interior finishes (called vanilla finish or white wall finish in some areas). Usually the landlord delivers the main building shell space or some minimum level of interior build-out, and the tenant completes the interior finish, which can include wall, ceiling, and floor finishes, mechanical systems, interior electricity, and plumbing. Typically these are long-term leases with tenants paying all or most property expenses.
- ◆ **Surplus Land:** Land that is not currently needed to support the existing use but cannot be separated from the property and sold off for another use. Surplus land does not have an independent highest and best use and may or may not contribute value to the improved parcel. See also **excess land**.
- ◆ **Turnover Vacancy:** A method of calculating vacancy allowance that is estimated or considered as part of the potential income estimate when using discounted cash flow (DCF) analysis. As units or suites turn over and are available for re-leasing, the periodic vacancy time frame (vacancy window) to release the space is considered.

- ◆ **Usable Area:** 1) For office buildings, the actual occupiable area of a floor or an office space; computed by measuring from the finished surface of the office side of corridor and other permanent walls, to the center of partitions that separate the office from adjoining usable areas, and to the inside finished surface of the dominant portion of the permanent outer building walls. Sometimes called net building area or net floor area. See also floor area. 2) The area that is actually used by the tenants measured from the inside of the exterior walls to the inside of walls separating the space from hallways and common areas.
- ◆ **Use Value:** The value of a property assuming a specific use, which may or may not be the property's highest and best use on the effective date of the appraisal. Use value may or may not be equal to market value but is different conceptually. See also **value in use**.
- ◆ **Value In Use:** The value of a property assuming a specific use, which may or may not be the property's highest and best use on the effective date of the appraisal. Value in use may or may not be equal to market value but is different conceptually. See also **use value**.
- ◆ **Value Indication:** A valuer's conclusion of value resulting from the application of an approach to value, e.g., the value indication by the sales comparison approach.

Anthos at Hidden Lakes Apartments
180 Hidden Lakes Court
Macon, GA 32104

Anthos at Shadowood West Apartments
4344 West Highland Drive
Macon, GA 31210

Dear Mr. Franklin:

Pursuant to your request, Newmark Frank Knight Valuation & Advisory, LLC (the "Firm") is pleased to submit the following proposal to provide Greystone Servicing Company, LLC (herein the "Client") the appraisal and appraisal services described herein through a qualified appraiser employee of the Firm. By signing and returning this proposal letter, you are signifying acceptance by the Client of the terms and conditions contained herein, including those in the attached Schedule "A" Terms & Conditions.

APPRAISAL FEE: \$8,200 (\$4,100 each, inclusive of expenses).

RETAINER: None

REPORT DELIVERABLES: The appraisal, draft and/or final, shall be delivered in electronic format (typically pdf). One original hard copy of the final appraisals will be provided to Client upon request.

DELIVERY DATE: Delivery is as follows:

Draft appraisals delivered by January 31, 2020.

Final appraisals will be provided within three days of receiving final comments of the draft appraisal.

REPORT TYPE: Complete Appraisal Reports

VALUATION PREMISE: Market Value As Is and As Stabilized following completion of planned renovations 24 months in the future.

INTEREST IN THE PROPERTY APPRAISED:	Fee Simple Interest
DATE(S) OF VALUE:	As of date of inspection and as of the date of stabilization following the planned renovation.
INTENDED USER(S):	Greystone Servicing Company
INTENDED USE:	The intended use of the appraisal is for mortgage lending purposes.
RELIANCE LANGUAGE:	None
GUIDELINES:	The analyses, opinions and conclusions are to be developed based on, and the appraisal will be prepared in conformance with the Uniform Standards of Professional Appraisal Practice (USPAP) as published by the Appraisal Foundation. The appraisal will also be prepared to conform to FIRREA (Financial Institutions Reform, Recovery, and Enforcement Act).
SCOPE OF WORK:	The appraiser will use and properly apply all applicable and appropriate approaches to value sufficient to produce credible assignment results. The scope of the analysis will be appropriate for the appraisal problem.
ASSUMPTIONS/ LIMITING CONDITIONS:	The appraisals will be subject to Firm's standard Assumptions and Limiting Conditions, which will be incorporated into the appraisal report. In addition, the appraisals may be subject to and the appraisal reports may contain Extraordinary Assumptions and Hypothetical Conditions.
ACCEPTANCE:	This shall constitute an Agreement only if countersigned by the Client, or by an officer, director or other representative of Client who, by signing and accepting this proposal, represents and warrants that he/she is authorized by Client to do so.
PAYMENT:	Client will be invoiced the appraisal fee which will be earned in full upon initial delivery of the draft appraisal report, with such appraisal fee (and expenses) payable within 30 days of invoicing. Payment of the said fee is not contingent upon any predetermined value or on an action or event resulting from the

analysis, opinions, conclusions or use of the appraisal.

**CHANGES TO THE
AGREEMENT:**

Any significant changes to the assignment as outlined in this proposal letter such as the identity of the Client, intended users, or intended use, shall necessitate the preparation and execution by both parties of a new proposal letter.

**CANCELLATION OF
ASSIGNMENT:**

Client may cancel this Agreement at any time prior to the Firm's delivery of the appraisal upon written notification to the Firm. Client shall pay Firm for all work completed on the assignment prior to Firm's receipt of such written cancellation notice, unless otherwise agreed upon by Firm and Client in writing.

**NO THIRD PARTY
BENEFICIARIES:**

Except as may be expressly provided for in this Agreement, nothing in this Agreement shall create a contractual relationship or any legal duty between Firm or Client and any third party, or any cause of action, rights, or claims in favor of any third party and against Firm or Client. In addition, this Agreement is not intended to, and shall not be construed to, render any person or entity a third party beneficiary of this Agreement. Client acknowledges and agrees that the appraisal report shall reflect the foregoing, and shall specifically state that no third party other than an "Intended User" identified herein shall be entitled to rely upon the appraisal.

This proposal letter may be withdrawn by the Firm unless this proposal letter is fully signed and returned to the undersigned within 10 days from the date of this letter.

If this letter correctly sets forth the Client's understanding of the services to be rendered to it, and if the terms of this proposal letter are satisfactory, please execute the enclosed copy of this letter and return it to us together with any required retainer.

Thank you and we look forward to working on this assignment.

Respectfully,

Raymond Higgins

TITLE:

SR ANALYST

DATE:

1/14/20

Schedule "A"

TERMS AND CONDITIONS

ATTACHED TO AND A PART OF THE PROPOSAL LETTER DATED JANUARY 14, 2020 TO PROVIDE APPRAISAL SERVICES FOR GREYSTONE SERVICING COMPANY, LLC

1. These Terms and Conditions are attached to and incorporated into the above referenced proposal letter (the "Agreement") as though fully set forth in full therein. Notwithstanding the state of domicile or residency of either party to this Agreement, this Agreement shall be governed and construed under the laws of the state in which the Property is located, and venue for any action or proceeding arising out of this Agreement shall be deemed proper only in the court of competent jurisdiction located in the state in which the Property is located. Capitalized terms if not defined herein shall have the same meaning as defined in the Agreement.
2. It is assumed that there are no matters affecting the Property that would require the expertise of other professionals, such as engineers or an environmental consultant, for Firm to provide the appraisal. If such additional expertise is required, it shall be provided by other parties retained by Client at Client's sole cost and expense.
3. Client acknowledges that the Firm is being retained as an independent contractor to provide the services described herein and nothing in this Agreement shall be deemed to create any other relationship between Firm and Client, including but not limited to an agency relationship. The parties neither intend nor have any expectation that any such relationship will arise as a matter of law or as a result of this Agreement. This assignment shall be deemed concluded and the services hereunder completed upon delivery of the appraisal described herein to Client.
4. All statements of fact contained in the appraisal report as a basis of the appraiser's analyses, opinions, and conclusions will be true and correct to the best of the appraiser's actual knowledge and belief. The appraiser is entitled to, and shall rely upon the accuracy of information and material furnished to the Firm by Client. Appraiser is also entitled to, and shall, rely on information provided by sources upon which members of the appraisal profession typically rely and that are deemed to be reliable by members of that profession without independent verification.
5. The Firm and the appraiser shall have no responsibility for legal matters, or questions or issues involving survey or title, soil or subsoil conditions, engineering, zoning, buildability, environmental contamination, structural matters, construction defects, material or methodology, or other similar technical matters with regarding the Property. Furthermore, the appraisal will not constitute a survey of the Property.
6. The appraisal and the data and information gathered in its preparation (other than the confidential data and information provided by Client) is and will remain, the property of the Firm. The Firm shall not violate the confidential nature of the appraiser-client relationship by improperly disclosing any confidential information furnished by Client to the Firm. Notwithstanding the foregoing, the Firm and the appraiser are authorized by Client to disclose all or any portion of the appraisal and appraisal report and the related data and information, including confidential data and information provided by Client, to appropriate representatives of the Appraisal Institute if such disclosure is required to comply with the Standards, Bylaws and Regulations of the Appraisal Institute, as well as, such disclosure as

required by law and regulations, including compliance with a subpoena and licensing authority regulatory inquiries. The Firm is also authorized to include both confidential and non-confidential data assembled in the course of preparing the appraisal and which may be incorporated into the appraisal report in a database controlled by the Firm for the aggregation of such data and information to produce analytics and other metrics or products.

7. Unless specifically noted in the appraisal report, the appraisal will not take into consideration the possibility or probability of the existence of asbestos, PCB transformers, other toxic, hazardous, or contaminated substances and/or underground storage tanks (hazardous material) at on or in the Property, or the cost of encapsulation, removal or remediation thereof.
8. Client shall indemnify, defend (by counsel to be selected by Firm), protect, and hold Firm and Firm's agents, employees, affiliates, successors and assigns, free and harmless from any and all claims, liabilities, losses, penalties, fines, forfeitures, amounts paid in settlement, judgments, and all reasonable attorneys' fees and related litigation costs, fees and expenses incurred by the any of such indemnitees, which result from (i) any failure by Client or Client's agents or representatives to provide Firm with complete and accurate information regarding the Property; (ii) any material breach by Client of the provisions of the Agreement; (iii) the failure of Client or any of Client's agents to provide a complete copy of the Appraisal to any third party where such delivery is permitted by Firm; or (iv) arising from Client or Client's agents or representatives providing a copy of the Appraisal to a party not authorized by the Firm to receive such copy.
9. In preparing the appraisal, it is possible that the appraiser will discover conflicting information. In that event, appraiser will utilize information and data considered to be the most authoritative and for critical information will document the source. Information and data referred to may include, but is not limited to, legal descriptions; physical street addresses; assessor parcel numbers; property history; dimensions and areas of the site/land; dimensions and areas of the building improvements; physical unit counts; rent rolls; leases; lease abstracts; income and expense data; and any other related data. Any material discrepancy and/or error in any of the above data could have a substantial impact on the conclusions reported, and the Firm therefore reserves the right to amend conclusions reported if the Firm is made aware of any such discrepancy and/or error.
10. The appraisal may not be used, included or referenced, in whole or in part, in any offering or other materials without the prior written consent of the Firm, which consent may be conditioned upon the receipt by the Firm of an indemnity agreement, in form and content, satisfactory to Firm and provided by an indemnitor satisfactory to Firm. Client agrees to pay the fees of the Firm's legal counsel for review of any materials which is the subject of the requested consent. Except as agreed by the Firm expressly in writing, the Firm disclaims liability to any party other than Client.
11. The Firm shall not provide a copy of the appraisal to, or disclose the results of the appraisal to, any party other than Client, unless Client authorizes same, except as provided in the Confidentiality Section of the ETHICS RULE of the Uniform Standards of Professional Appraisal Practice (USPAP) or as otherwise required by law or regulations.
12. Client and any other identified Intended User should consider the appraisal as only one factor together with its own independent considerations and underwriting guidelines in making any decision or investment or taking any action regarding the Property. Client agrees that Firm shall not be

responsible in any way for any decision of Client or any Intended User related to the Property or for the advice or services provided by any other advisors or contractors.

13. Unless otherwise stated in this Agreement, Client agrees that the services pursuant to this Agreement shall not include participation in or preparation for, or attendance at, any legal, judicial, administrative, or arbitration proceeding relating to this assignment. In the event the Firm or any of its affiliates or the appraiser is required, whether through the service of a subpoena or otherwise, to produce documents or participate in or prepare for any discovery, testimony or attendance, relating to the appraisal or this assignment, where the Firm or its affiliate or the appraiser is not a party to the action or proceedings involved, Client agrees to reimburse expenses incurred by the Firm or its affiliate or its appraiser, including attorney's fees, in responding to such subpoena or other legal process and compensate the Firm therefor based upon the appraiser's prevailing hourly or daily rate for providing services as an expert consultant or witness.
14. Except as expressly provided herein, Firm makes no representations or warranties to Client or to any other person or entity with respect to the appraisal and the services to be provided by Firm under this Agreement. To the maximum extent permitted under applicable law, in no event will the Firm, its appraisers, employees, affiliates and agents, be liable for any indirect, special, exemplary, incidental, or consequential damages (including loss of profits) arising from or relating to this Agreement or the appraisal, even if such party knew or should have known of the possibility of, or could reasonably have prevented, such damages. In no event shall the total liability of the Firm, its appraisers, employees, affiliates and agents, arising from or relating to this Agreement or the appraisal, whether based on tort, contract, or any other legal theory, exceed the amount of fees paid to the Firm for the appraisal and the services described herein.
15. Federal banking regulations require banks and other lending institutions to engage appraisers where FIRREA compliant appraisals must be used in connection with mortgage loans or other transactions involving federally regulated lending institutions. In view of that requirement, this Appraisal may not be accepted by a federally regulated financial institution.
16. In the event Client fails to make payments of any fees or sums when due and payable under this Agreement; then from the date due and payable until paid, the amount due and payable shall bear interest at the maximum rate permitted under the laws of the state in which the Property is located. If the Firm is required to undertake collection efforts including institution of legal action against Client relating to the Agreement, the Firm shall be entitled to recover attorney's fees, litigation expenses, and costs from Client.
17. To the extent permitted under applicable law, any legal action or lawsuit or other proceeding by Client or any Intended User of the appraisal against Firm or its affiliates, officers, directors, employees, contractors, agents, or other representatives, whether based in contract, tort, warranty, indemnity or otherwise, relating to the appraisal shall be commenced within two (2) years from the date of delivery of the appraisal to the claimant in such action or proceeding unless the applicable law provides for a shorter period and any such claimant waives the right to a jury in any such legal action or lawsuit or other proceeding.
18. Throughout the performance of services under this Agreement, the Firm shall maintain at its sole cost and expense the following insurance:

- (a) Workers' Compensation, so as to provide statutory benefits as required by the laws of each state within the United States in which the Firm's services are being provided, and Employer's Liability insurance with limits of liability of no less than \$1,000,000 each accident, \$1,000,000 disease each employee and \$1,000,000 disease policy limit covering all employees of the Firm engaged in the performance of such services.
- (b) Fidelity insurance or bond with a limit of not less than \$1,000,000 to insure the Firm against loss of its or Client's assets caused from the dishonest acts of the Firm's employees.
- (c) Professional Liability insurance with a limit of liability of not less than \$15,000,000 each claim and \$15,000,000 aggregate, which limits may be provided by a combination of primary and excess policies.
- (d) Commercial General Liability insurance providing coverage against damages due to bodily injury (including death), property damage and personal and advertising injury arising in connection with the Firm's services provided under this Agreement, which insurance coverage shall: (i) be occurrence-based; (ii) provide limits of liability in an amount not less than \$1,000,000 each occurrence and \$1,000,000 aggregate (including excess and/or umbrella limits), (iii) include at least those coverages generally included in the most current ISO Commercial General Liability insurance policy form (or its equivalent); and (iv) include Client, and such other persons or entities as Client may identify in writing, as additional insureds solely with regard to claims arising out of this Agreement.
- (e) Commercial automobile liability for owned, hired and non-owned motor vehicles, with a \$1,000,000 combined single limit.

Raymond Higgins, joined Newmark Knight Frank in June 2017 along with his Southeast Realty Consultants colleagues, and currently serves as a Senior Managing Director and is the Southeast Market Leader. Mr. Higgins is also the Specialty Practice Leader for Multi-Family. He works primarily in the states of Georgia, South Carolina, North Carolina, Alabama, and Tennessee.

Mr. Higgins has 32 years of real estate appraisal and consulting experience working for financial institutions, insurance companies, pension funds, attorneys, and individuals. His overall valuation experience includes appraisals of numerous types of commercial properties including apartments, office buildings, retail facilities, industrial properties, and vacant commercial sites.

Before joining Newmark Knight Frank Mr. Higgins operated his own appraisal firm for eight years. Prior to that he spent 17 years with CBRE and was the top producer nationally for 13 years.

Mr. Higgins graduated from The University of Alabama at Birmingham, where he earned a Bachelor of Science degree with a double major in finance and management.
